**Type of Notification:**

**MHP-TA Product Manufacturing Location Change**

**Description of Change:**

Littelfuse acquired Polyswitch business from TE Connectivity in March 2016. With the integration, we will consolidate MHP-TA productions into Littelfuse Kunshan plant for both MHP-TA (moving from Shanghai TE plant) and the Ni lead assembly lines (moving from Littelfuse Shanghai plant). This consolidation will enable us to better manage vertical manufacturing process and materials flows. This change does not affect product form, fit and function.

We will build some inventory in Shanghai plant during the moving period, while expecting to ship products made in Kunshan plant from Feb 2017. You may receive products from both manufacturing locations for short time. All the products will be shipped from Kunshan after Shanghai build inventory is consumed. We value your business and we will work with you to make this change as smooth as possible.

If you would like to have more information, please contact your local sales representatives.
